**Centennial College**

COURSE COMP125
ASSIGNMENT #4 – 15 Marks
Due Date: Please refer to eCentennial

This assignment is similar to the demo done in the class on July 27. Create a HTML document called **YourName_Assignment4.html** and corresponding JavaScript, CSS files.

You are expected to develop a drag and drop feature using JavaScript. Your page must allow the user to drag & drop the 'Draggable image' element inside 7 purple boxes as shown in the figure. User should not be allowed to drag and drop the image in any of the other places. UI must be legible & neat. (10 Marks)

Be creative and go extra mile, Add more features to this web page, make the UI appealing. Replace the boring 'Draggable image' text with a legible image and replace the blue boxes with another image. (5 Marks)

Submission Rules:

- Submit your HTML,CSS, JS files as a **.zip file** to eCentennial.
- Demonstration of work: As a screenshare video, You must explain the code and output. Think of this as a practice session for the code walkthrough you might be doing in a coding interview. Expected duration 2 – 5 minutes. (**Your Assignment will not be evaluated without this Video**). You can submit this video through youtube link or video file, in ecentennial.
- Due to semester end, late submissions will not be accepted.
